ECOVADIS

Nowy Styl was awarded Platinum Medal by EcoVadis

EcoVadis is the leading platform for evaluating and rating Environmental, Social, and Governance (ESG) performance of businesses worldwide. It is recognised by thousands of companies.

The criteria applied are based on international sustainability standards such as the UN Global Compact, the GRI and the ISO 26000 standard.

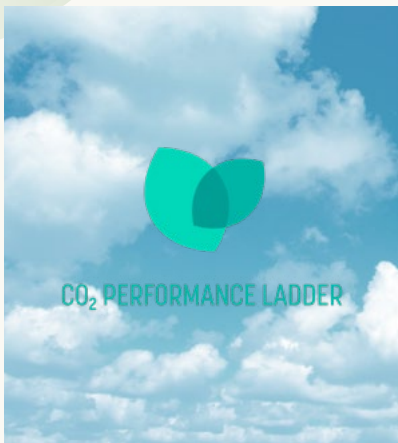

This year, greater focus was placed on issues related to the management of greenhouse gas emissions reduction.

We are among the 1% of companies with such a result.

CLIMATE GOALS

NowyStyl

Reduction of emissions

We have a CO₂ Performance Ladder sustainability support system in place.

We will reduce our CO₂ emissions by 7.1% annually by 2025.

Green Electricity

By 2025 we want to grow share of **green energy in our plants in Poland to 50%.**

Sustainable resources

Increasing post-consumer and pre-consumer recycled materials in our products.

Reduction of waste

Returnable packaging eliminating cardboard and plastics from the packaging.

An aerial photograph of a rural landscape. The scene is dominated by vibrant green agricultural fields, some of which are rectangular and others more irregular. A network of roads and paths winds through the fields. In the upper left, there are several small buildings, possibly farmhouses or barns. The overall atmosphere is bright and natural, with a clear sky and strong sunlight creating distinct shadows.

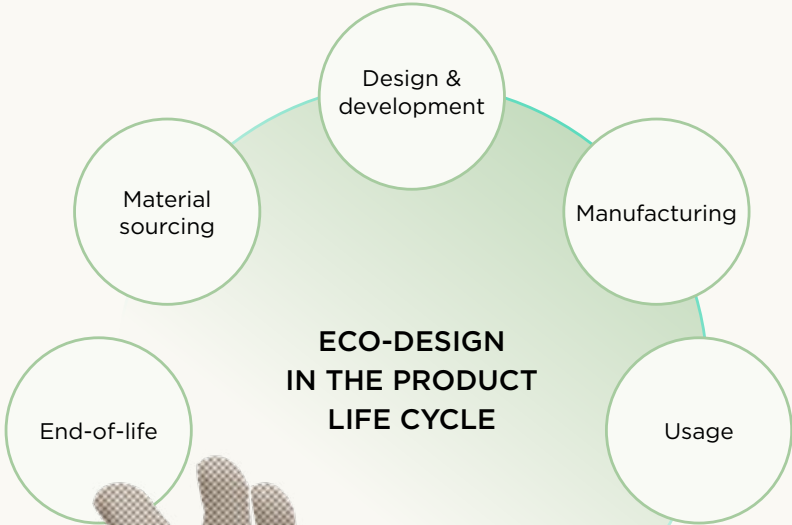

We act
responsibly

We account for all our activities in a **Sustainability Report** prepared in accordance with the **GRI guidelines** and verified by an external auditor.

ECODESIGN IN OUR PRODUCTS

In 2021 we obtained ISO 14006 certificate
- Environmental management systems
for incorporating ecodesign.

Eco-product certificates
for our (chosen) product:

In addition to certifications, some of our products have **EPD Cards and Green Passports.**

These documents provide data on the environmental impact of our products, at all stages of their life cycle. It is a tool for comparing the environmental properties of our products.
